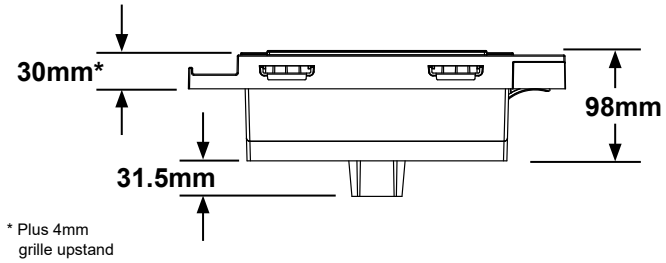
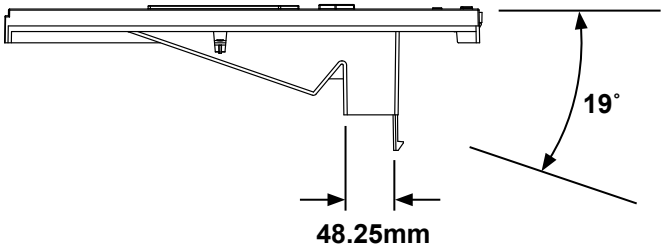
Manthorpe Building Products

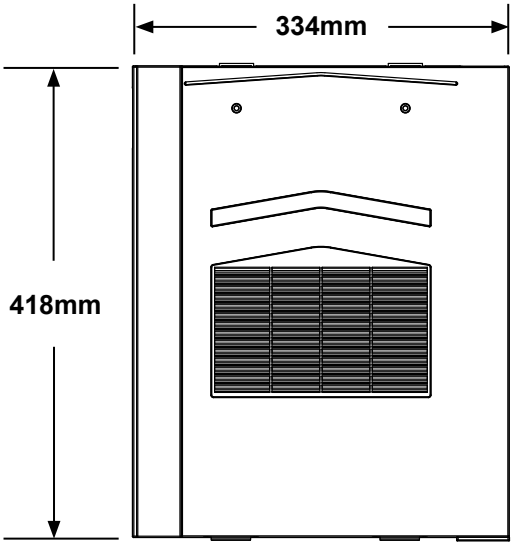
Product Information Sheet

In-Line Tile Vent Range - Non-Profile Tile Vent

Code: **GTV-NP**







Description

The Manthorpe Non-Profile tile ventilator is designed to provide a quick and simple solution to the problems of roofspace ventilation and mechanical extraction / soil stack termination through a roof covered in flat, large format interlocking concrete tiles.

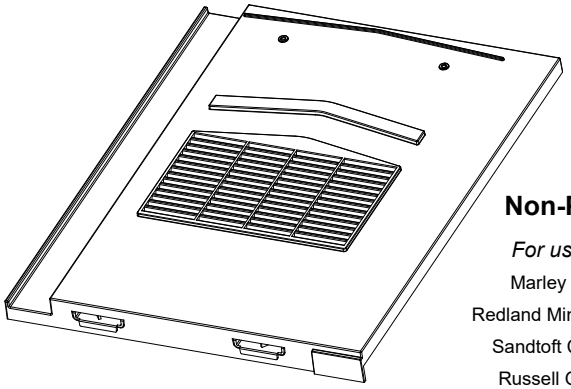
The vent is designed to replace a single tile and maintain an unbroken appearance to the roofline whether used at high or low level.

The tortured path through the 4mm louvred grill and internal weathering geometry is designed to maintain a 10k mm² of airflow whilst channelling any water ingress out of the vent and on to the roof covering.

Part Weight	1.08 kg
Box Qty	4
Materials - Top	PVC
Base	Polypropylene
Colours	Terracotta, Grey, Black, Brown & Antique Red
Free Airflow	10,000 mm² per unit

Features

- In-line and discreet low profile design.
- 4mm louvred flyscreen grill.
- Integral sidelock clip to ensure secure fit.
- Range of profiles and colours available.
- Profiles suit all top tile manufacturers.
- Fully independently wind tunnel tested.
- Base outlet feeds directly into roof space.
- Adaptor available for mechanical extraction.
- Suitable for use down to a 20˚ roof pitch.



Non-Profie

For use with:

Marley Modern
Redland Mini Stonewold
Sandtoft Caderdale
Russell Grampian
Lagan Flat
